SEARCH FOR FACILITY

This API will provide you with a list of facilities present in the HFR system based on the search criteria. It returns the basic details of the facilities like Facility Id, Name, demographic details, etc.

Please note:

- You can either search for a particular facility, by sending in the facility Id, or with search criteria.
- If you search with facility Id, then other search parameters will not be considered.
- If search is performed without facility id, then you must pass in all the required parameters for a successful search.
- The data needs to be passed in the required format as mentioned for each field.
- Certain demographic details need to be filled in as LGD Codes (Local Government Directory). Please visit <https://lgdirectory.gov.in/> for more information.
- The API performs fuzzy match on facility name and exact match on all the other attributes.
- It returns the result in pagination format. By default, it will return the first page consisting of 10 records unless specified otherwise.
- Please note this API is to be used to find the facilities registered, so that no duplicate facilities are created by the other APIs
